TM Series

Print Beyond the Everyday

The new imagePROGRAF TM Series offers versatility and productivity to help meet the growing demands of today's marketplace. With a range of models, this series allows you to easily produce CAD documents, posters, banners, flyers, and more.

What's New?

New Magenta Ink

Equipped with newly formulated magenta ink, these printers achieve excellent red color development. The printers produce highly visible posters, making it possible to create attention-grabbing retail POPs and engaging office displays. The use of pigment ink for all colors helps to ensure that prints do not easily fade over time, making them suitable for long-term display, and also provides water resistance for outdoor use.

Color Calibration

The ability to calibrate your printer for consistent color quality is now available in the imagePROGRAF TM Series. This helps ensure your output is color consistent over time and across multiple TM Series devices.

Speed

With the new L-COA PRO II processor, the new imagePROGRAF TM Series is approximately 30 percent faster than previous models with a speed of up to 3.2 ppm for an Arch D size sheet (24" x 36").

Ease of Use

The newly designed imagePROGRAF TM Series has been built for more efficiency and comfort compared to previous models with its new flat-body design, full-frontal operation, and new 4.3" adjustable user interface screen. The user interface screen displays the ink levels and sub-ink tank levels, media indicator levels, and other setting prompts all on the home screen!

Environmentally Conscious

Registered as EPEAT Gold—first in the imagePROGRAF TM Series—and as ENERGY STAR certified, this series is replacing EPS packaging materials with cardboard packaging.

Automatic Paper Detection

The new imagePROGRAF TM Series is able to determine the media type, length, and width, and displays this information on the user interface home screen.

Available Software – Including Poster Creation!

PosterArtist (Online and Lite versions) is an easy-to-use, cost-free, template-driven poster creation software. Create professional posters, banners, flyers, and more in just four easy steps!

Free Layout Plus lets you nest, tile, and create custom layouts before printing your files with this print utility. Use the plug-in feature to print directly from Microsoft Office programs.

Direct Print Plus lets you batch print files and monitor the status of more than one imagePROGRAF Series printer. Additional features allow you to easily produce collated sets, drag and drop PDF files, and nest images.

Accounting Manager helps track actual ink and media usage and costs.

Markets & Applications

Markets

- Retail
- Restaurants
- Education
- Architecture
- Engineering
- Construction
- Hospitality
- Print Shop
- Corporate Spaces
- Real Estate

Applications

- Sale Signs
- Maps
- Welcome Signs
- Yard Signs
- Directional Signage
- Fundraisers
- HR Announcements
- Hospitality
- CAD Renderings
- Floor Plans
- Show/Concert Posters
- Infographics
- Menu Display Signs
- Safety Signage
- School Play Posters
- In-Store Displays
- Court Room Graphics
- Trade Shows

Features

What all the new imagePROGRAF TM models have in common:

New Magenta Ink

New Flat-Top Body Design

New Tilt-Up User Interface Screen

New Automatic Media Detection (Type/Length/Width)

New Color Calibration Capabilities

New EPEAT Gold Certified - Environmentally Conscious

Hot-Swap Ink Tanks

L-COA PRO II Processor

Noise Reduction Improvement

24” imagePROGRAF TM Models:

TM-240
TM-240 MFP Lm24
TM-250
TM-250 MFP Lm24

36” imagePROGRAF TM Models:

TM-340
TM-340 MFP Lm36
TM-350
TM-350 MFP Lm36
TM-350 MFP Z36
TM-355
TM-355 MFP Z36

Flat Stacking Basket

imagePROGRAF TM-355 shown

Flat Stacking Basket

Standard and only available in the TM-355 model and corresponding MFP

User Interface Screen

- Automatic Media Detection (Type/ Length/Width)
- Ink Tank and Sub-Ink Tank Levels

Stackable Basket

Catch Basket

Standard and only available in the TM-240 Lm24, TM-340, and TM-340 MFP Lm36

Multifunction Solutions

MFP Z36 Solution

Integrated Solution – scanner mounts directly to the printer!

15.6" Touchscreen Controller with intuitive, user-friendly interface

MFP Lm24/Lm36 Solution

Supports thicker media than previous models

Tilt Screen with simplified navigation User Interface

Lm Series 24" and 36"

Simple operation. "Green Button" scan-to-copy functionality. No PC required.

Low volume for entry-level users

- Scanning speed of up to 3.0 inches per second monochrome, 1.0 inch per second color
- Multi-color 3" LCD touchscreen user interface
- SingleSensor technology (up to 600 dpi)
- Scan documents up to 0.8 mm thick
- ScanAppL

Z36 Series 36"

Advanced workflow capabilities to scan, edit, save, share, and print with ease and efficiency.

High volume for more experienced users

- Scanning speed of up to 13" per second monochrome, up to 6" per second color
- 15.6" Touchscreen Controller for large preview and editing of scans
- SingleSensor technology (up to 1,200 dpi)
- Scan a document up to 1.0 mm thick
- SmartWorks MFP software included
